It's difficult to divide the state into two equal sized Silver meets. Currently, I am using HWY 60 as the North/South dividing line. Teams on or north of HWY 60 head north and teams on or below HWY 60 head south. The downfall with this logic is that many of the states large teams are below HWY 60 (thus one could speculate the south Silver meet is going to be large and present a possible unsafe swim meet environment – although WEST will be running 10 lanes). Also, it's probably a safe assumption that some teams will not be attending a Silver meet (CC, UWM, WA, WCSS, etc.). If you see that I missed a team, please advise. Neil Wright, AG Chair
